## Message From Principal (MIP)

It's great to be in largely unexplored talent of Bramhapuri in all fronts. I find lots of strength and hence great opportunities for young and budding engineers of tomorrow growing from MIP. I did witness culture of hard work and inquisitive nature present in employees and students. I believe this as sunrise of this area. The noon in offing. When it will arrive, we will see dramatic and amazing modern Bramhapuri. This is my dreams of near future. The year has been established of labs, cell & clubs which will pave success of the institute growing stronger day by day. I am sure to foresee, one day hardcore engineers coming out of MIP will conquer the world. Let us strive for improvement in what we do & that's way in which we will surge ahead.
